key facts

- ✓ The two Mini-Pitch Systems installed by Verde will support the club in its mission to make sure youth are getting the playing spaces and opportunities they deserve.
- ✓ The revolutionary playing surface made from over 18,000 recycled trainers, delivered by Nike Grind, will be an integral community hub for the local community.
- ✓ The Astroturf pitch will be used as an inner-city football talent ID centre by the Club's Academy and Global Football Development team.
- ✓ It will also be used to deliver matchday activations and other events as part of the Club's continued drive to create a sports and entertainment destination for London.

“

We cannot stress enough the importance of facilities like this existing in the heart of our communities – providing the opportunity for local people to take part in fun, sporting activities in a structured way with our fantastic coaches overseeing.
