

Yate Outdoor Sports Complex

Refurbishment of the existing artificial grass hockey pitch.

Site: Broad Lane, Yate BS37 7LB.

Synthetic System: FIH Approved Product.

Project Value: £214,000

Contract Period: 8 Weeks

key facts

- ✓ Built to FIH National Standard.
- ✓ The project included the removal and disposal of the existing artificial grass and shock pad, installation of a 15mm in situ shock pad, installation of 18mm sand dressed artificial grass, cleaning and colour coating of the spectator area, installation of a 1.2m high spectator fence and installation of new shelter recess and detox area.
- ✓ Verde worked in partnership with Yate Town Council, Yate Outdoor Sports Complex and Subcontractors to ensure all aspects of the project ran fluently, safely, within the contract period and to budget.
- ✓ All health and safety measures were implemented and Verde worked closely with all Subcontractors to ensure all safety standards were achieved.

The project was ran very professionally and we were aware each week what stage the works were at. Unforeseen issues were identified as and when and we were offered several options to overcome these issues.
